13. Mounting the attachment to the window handle "stop"

- Set the lever of the window handle horizontally
- Slide the receiving sleeve of the device onto the window handle.
- Place the prepared screw thread clamp 1 on the lever of the window handle as close as possible to its tip with the closure turned to the window and the screw 2 pointing upwards and tighten the screw 2.

14. Assembly of the stem from two parts

- Fit both parts of the handle (picture below) so that the markings A face each other and the holes C and D fit exactly together.
- Carefully press or hammer in the stem with holes B and D of the markings A turned upwards and on a not very hard surface (wood or similar).

No more to air on table, chair, ladder have to climb

Window opener window handle extension DESIGN Aids no. 02.40.04.5001

Instructions

Simple and universal solution for hard to reach windows

W-INVENTION

1. Purpose of the product / indication

The product is mainly intended for people who can not reach their windows for ventilation due to disability or illness.

Typical situations for use of the product: an office table, a bathtub, a kitchen worktop is placed in front of the window or the window handle is too high.

2. Existing application risks and contraindications

The manufacturer is not aware of any application risks.

The device is not a power amplifier. It can only be used by people who are able to operate an accessible window directly by hand on the window handle.

Persons with trembling or troubled hands should only use the devices permanently attached to the window handle to prevent unintentional damage to the window pane.

3. Construktion

The device has a handle 1, a handle (with or without padding) 2 and pivoting receiving sleeve 3, in which an anti-slip insert is installed on.

The stem of an over 115 cm long device can consist of two parts. The scope of delivery may include the device "stop" for permanent attachment of the device to a window handle and the "wall hook" for storing the device on a wall.

With and without
